

Integration Services

integrating children with special needs

Family Day's Toronto Integration Services Program is part of the Every Child Belongs program. We have three full-time Integration Services Coordinators who support children with special needs in home child care and child care centres within Toronto East. This support can include:

- regular visits to programs
- early identification and intervention
- individual consultation
- program consultation
- staff and caregiver training
- program adaptations and environmental assessments
- service co-ordination and referral

Parents are required to complete a parental consent form in order for the consultation process to begin. The cost for this service is paid for by Toronto Children's Services under Special Needs Resource Funding.

Children with Special Needs

Family Day welcomes children with special needs in all of our programs. In our Toronto Home Child Care Program, we offer support, training and consultation to integrate children with special needs from birth to 18 years. We endeavour to offer the highest quality services.

If you have concerns about the service that are not being addressed, please speak to your Consultant. If you are still not satisfied, please speak to the Program Manager.
