Infant Massage (Age birth to 10 months) - This is a five-week workshop. The purpose of infant massage is to promote bonding/attachment through nurturing touch. Touch is the first sense to be developed in utero. During infant massage, parents rhythmically stroke their baby and thereby stimulate the sense of touch. **Registration ends on Fri., Sep. 24 at 3 pm.**

The benefits of infant massage include:

- developing language skills, muscular development
- building trust and self-esteem
- improved sleep patterns
- increased environmental coping mechanisms
- relief of growing pains and gas or colic

(Please note: Please speak with your child's doctor before signing up for this program if your child has a pre-existing medical condition)

You will need a blanket, towel, a diaper change mat and oil for the massage. We recommend that you use vegetable oil (preferably organic), not baby oil.

It is strongly recommended that the adult attending be the parent rather than another relative or caregiver, because this experience will cause the child to have a strong bond with the adult performing the massage.

This program is limited to 12 families.
